CALGARY, Alberta, the sand stone City of the West of practically mushroom growth, and yet possessing the solidity of the rock for which the vicinity is celebrated, is the possessor of a Fire Department of which any City of greater age and more pompous pretensions might well be proud. The conglomeration of tents and shacks of twenty years ago has grown into a City of ten thousand people and the Fire Department has developed from a Bucket Brigade into an organized system with electric alarms throughout the City, a fifteen hundred pound bell, and a thoroughly up to date equipment at the Station.

The Department consisting of thirty-five active and about twenty reserve members, is still conducted on the volunteer system, but so thoroughly is it organized that a hitch can be made in less than ten seconds, and a night alarm can be responded to in one minute.

The Fire Hall, situated on Seventh Avenue, between Centre Street and First Street East, contains comfortable rooms for ten men and this number sleep in the Hall, ready to act on the first stroke of the night alarm. Many of the members live in the vicinity of the Hall and their homes are con-

**The Oldest House
In Our Line
On the Pacific
Coast.**

Our Goods are in Service in Nearly Every Fire Department in the Northwest.

Why?

Because we have been here many years. Carry complete stock of Fire Department Supplies. Control on the Coast the output of Leading Eastern Manufacturers of Fire Apparatus, Fire Hose and Fire Department Equipment, whose goods are everywhere accepted among Firemen as the best.

General Agent International Fire Engine Co. for States of Oregon, Washington and Idaho. Province of British Columbia and District of Alaska.

Steam Fire Engines, "Champion" Chemical Fire Engines, Hook and Ladder Trucks, Water Towers, Hose Wagons and Carts, "Babcock" Hand Fire Extinguishers and Grenades, Hydrants, Valves, Fire Bells, Play Pipes, Nozzles, Cooper Hose Jackets, Vajen-Baden Smoke Helmets, Fire Department Brass Goods and Supplies.

GUM AND WAX TREATED COTTON FIRE HOSE.

Unequalled in Service and Strength.

Fire Department service most exacting and severe, upon which life and property so often depend, demands the highest grade of equipment, which best material, skillful workmanship and experience can produce. We furnish only such equipment, and at lowest possible prices consistent with **Best Quality**.

**Would you Buy a Pair of Shoes, Set of Harness or any Other Article
for Exposed Service, Sewed with White or Unwaxed Cotton Thread?**

Then why buy Fire Hose having its Jacket made of this material? The gum and wax treated Cotton Fire Hose made by the Fabric Hose Co., of New York, and sold exclusively in the Northwest by A. G. Long, Portland, will give you far longer service than any raw or unwaxed cotton hose can give, and is therefore cheaper in cost per foot, per year, and is absolutely reliable, as its record proves.

OVER SIX MILLION FEET NOW IN SERVICE IN FIRE DEPARTMENTS OF THE U.S.

Our Brands:	"KEYSTONE"	"PATROL"	"ARROW"	"SAFETY"
	Heavy Double Jacket	Lighter Double Jacket	Heavy Single Jacket	Lighter Single Jacket

SEND FOR SAMPLES, FREE.—We manufacture here, and in the East, everything used in Fire Department Service, Fire Engines, Hook and Ladder Trucks, Hose Carts, Chemical Engines, and Fire Hydrants, etc., and carry in stock full line of Fire Department Supplies. **LET US KNOW YOUR WANTS.**

nected with the general alarm system. Twenty-five of the active members are insured by the City (including the men who sleep in the Hall and other married men) in the sum of \$1000.00 each, against accident at either fire or practices. The Brigade also has a strongly organized Benefit Association for the assurance of its members in case of accident. Fortunately very few calls have been made on the funds so far and they are now reaching a respectable sum. It is hoped after the expenses of this booklet are paid that they may be still further augmented.

The remuneration received by the members for the work they perform and the risk they take is 75c. per hour while engaged at a fire and 30c. per hour for practices or work after a fire.

This may seem good pay but many of the members could testify to the loss they have sustained through damage to clothing, especially by responding to alarms on the Sabbath when they have on their "Store Clothes" to go and see their best girl, however, they never let such matters interfere with

their duty. Uniforms have been twice provided out of the funds of the Brigade at a cost of about \$1500.00, and the men make a very natty appearance on parade.

At present the fire-fighting apparatus consists of a Ronald fire engine, hose waggon, carrying 1200 feet, hook and ladder truck, and one horse Chemical engine, with a large quantity of reserve hose, hose reels, etc. This

equipment is all horsed and extra horses are also kept on hand. A new up-to-date hose waggon and also a double Chemical engine are ordered from the Canadian Fire Engine Co. of London, Ont. A new steam engine is also to be added.

The alarm system was installed about two years ago and numbers 19 boxes and 12 bells to members houses and has been the means of great protection to the town in bringing the men more quickly to the scene of a fire.

The City is provided with a system of Waterworks and although it has made some miserable failures in the past when most needed, improvements are now being made which will bring the system up to a proper standard of efficiency. A pressure of 100 pounds is expected.

Fire reserves have been made in different parts of the City where stations may be erected as required, and even now one is in contemplation for the South side, and also one East of the Elbow River. With the present

growth of the City continuing it will not be many years before all these reserves are occupied by up-to-date fire stations.

For some years a first class band has been maintained in connection with the department, the foundation having been laid by Mr. W. D. Marsh, in the year 1890, who purchased the instruments and uniforms of the Odd-

fellows Band and turned them over to the Brigade, since that time the uniforms have been twice replaced, and many new instruments have been added. The present leader of the band, Mr. Crispin Smith, has had charge since July 23rd, 1900, and has brought the band up to a high state of efficiency.

In sport the Brigade has been always foremost and many trophies adorn the Assembly Hall.

The special feature of the year in Calgary is the 24th of May celebration by the Fire Department.

The associations of the department with other bodies in the City have been most cordial and with the N.W.M.P. and the C.M.R., the best of good fellowship has always existed. On several occasions material assistance has been rendered by men of "E" Division and the Mounted Rifles in subduing serious fires.

The Brigade have always been very generous in their giving and have spent hundreds of dollars for presents for those whom they wish to honor.

This has mostly been amongst their own members, but they have also expressed their appreciation of others, including Rev. Father Naissins of the Dunbow School, and Mr. Crispin Smith, the popular band leader.

The present chief of the Department, Mr. Jas. Smart, was elected in 1899, and his popularity with the members and citizens generally is so great

Historical Sketch.

FOR some time prior to 1885, a Bucket Brigade had partially existed in the little Western Town of Calgary, which had been moved from East of the Elbow River to its present location.

The first real organization took place on August 25th, 1885, when a hook and ladder company and a bucket corps was organized, and chemical engine procured. Geo. Constantine was elected Captain, Ed. Donohue, Lieut., and T. A. Boys, Secretary. On the 1st September Constantine resigned and a re-organization and election took place, the following officers being elected: — CAPTAIN, Steve Jarrett; LIEUT., Ed. Donohue; TREASURER, W. H. Cushing; LADDERMEN, Joe Rodway, Jas. Smart; HOOKMEN, Jack Summers, and Walter Jarrett; AXEMEN, S. N. Jordan, and S. J. Clarke; TRUCKMAN, Mr. Shaw; FINANCE COMMITTEE, S. J. Clarke, J. H. Millward, J. Lam-

the Burns Block. A high wind prevailed at the time but at about noon the fire was got under control through the heroic efforts of the Brigade and Citizens. After this fire a Ronald engine and two hose reels and 2000 ft. of hose were purchased.

This fire was the means of considerable dissatisfaction and on November 1st of 1886 a meeting was held, with Archie Grant in the chair, Steve Jarrett was elected Chief, Bob Ogburn Asst. Chief, and W. J. Creighton, Secretary. It was recommended that a Fire Hall be built. This was approved of by the Council and the present Hall constructed.

On April 12th, 1887, Chief Jarrett resigned and Frank Dick was elected to the position, with Bob Ogburn Asst. Chief.

In May, 1887, the new Fire Hall was completed and the citizens contributed \$500.00 towards furnishing. It was informally opened on May 24th, by a Concert and Dance and an inaug-

ural dance took place on June 9th.

On December 13th, 1887, Hugh McClelland was elected Asst. Chief on the resignation of Bob Ogburn.

The following members who are still in the Department were on the list in 1887, viz :- Jas. Smart, H. McClelland, A. McTavish, and others are still residing in the City, viz :- H. Swaffer, A. J. Smythe, John Brennan, R. Fletcher, W. Jarrett, S. Spafford, Jas. Linton, Thos. Underwood and until

recently Archie Grant and Jas. Jacques.

About this time a digression occurred. The Town Council became greatly enamoured of their new handiwork in the shape of the new Fire Hall and proceeded to hold their meetings therein and make it a general place of civic business. This did not meet with the approval of the Brigade, so Chief Dick and his members stepped down and out, sold their furniture and donated the proceeds to the hospital.

After the tried Brigade resigned the Mayor and Council proceeded to appoint a high salaried Chief and organize a Brigade consisting of the Mayor and Council and would-be fire-fighters. The new body was well organized on paper, but, when it came to a serious fire, they weren't in it, and in a short time the citizens were clamouring for the reinstatement of the old Brigade.

This occurred on July 23rd, 1889, when a meeting was held in the office of E. R. Rogers, and a decision arrived

at to have the regular Brigade again take charge. A memorial was presented to the Council embodying the wishes of the men, and was adopted with slight changes, thus securing harmony between the two bodies. The Hall and Appliances were accordingly turned over to the original Brigade.

The Department organized at this time is still in existence.

GEORGE HENDERSON

Born in Princeville, Ont., June 5th 1871
Joined May 21st, 1900

On the 29th of July Officers were elected as follows:—

CHIEF, E. R. Rogers ; ASST. CHIEF, W. H. Cushing ; SECRETARY, A. J. Lindsay ; TREASURER, Jas. Smart ; CAPT. HOSE COMPANY, Jas. Smart ; CAPT. HOOK AND LADDER COMPANY, W. Pritchard ; CAPT. CHEMICAL Tom Earl.

From this time on the Brigade forged ahead. More water tanks were established throughout the town and approaches were made to the Bow River on the North and the Elbow River on the South, for the purpose of filling them.

1890. -E. R. Rogers was again elected Chief and H. McClelland Asst. Chief, other Officers remaining the same. The Brigade now began to look for other fields of action, and on January 11th steps were taken to purchase a set of band instruments from the Oddfellows, but before they could be executed Mr. D. W. Marsh, out of his own munificence presented the band with the instruments, uniforms, music

stands, etc. A band was organized and has since been carried on with varied success under different leaders.

A gymnasium was also organized and conducted successfully for some time. On March 13th, some dispute having arisen amongst the members as to who should be admitted, the rule was set down that no man could be

1895—J. Wilson, chief ; S. L. Saunders., asst. chief ; Jas. Smart, sec.-treas. ; G. Baetz, capt. hose ; W. S. Rosewell, capt. hook and ladder ; F. Atkins, capt. chemical half year and J. Martin half year. In this year considerable improvements were made on the suggestion of the brigade, although the members had to threaten to resign if same were not granted. The additions consisted of matched team of horses, chemical hose, grappling hooks, repairs to hall, salary to chief, etc.

1896—J. Wilson, chief ; S. L. Saunders, asst. chief ; Jas. Smart, sec.-treas. ; G. Baetz, capt. hose ; H. McClelland, capt. hook and ladder ; J. Martin, capt. chemical. On March 9th of this year J. Wilson was appointed to the paid position of engineer and handed in his resignation as chief of the brigade. H. McClelland was elected to the position of chief and L. Earle, capt. of hook and ladder.

1897—H. McClelland, chief ; S. L. Saunders, asst. chief ; Jas. Smart, sec.-treas. ; G. Henderson, capt. hose ; L.

Earle, capt. hook and ladder ; R. M. Wilson, capt. chemical. In March Asst. Chief Saunders resigned, leaving the city, and Jas. Smart was elected asst. chief, also continuing the office of sec.-treas. In June of this year the brigade turned their hand to fighting water instead of fire. A serious flood of the Bow river occurred. The Brigade were called out and did heroic work rescuing residents on the water front. They were voted \$75 by the council for services.

Top Draft Furnaces

POINTERS FOR YOU TO THINK OVER

1. We can save you fully one-half of ordinary fuel bills.
2. We can save half of time usually required to look after an ordinary furnace.
3. There is no dust or dirt, as furnaces are constructed air-tight.
4. You can control the heat and not have it cold at one time and too hot at another.
5. The draft air drawn from floor assists circulation of heated air through pipes and registers, and causes uniformity of temperature throughout the rooms.
6. The cost of installation is no more than other furnaces and the saving in fuel consumption soon pays first cost.

ALEX. CREIGHTON

Born in Kincardine, Scotland, Nov. 7th, 1871
Joined Jan. 6th, 1902

1898—H. McClelland, chief ; Jas. Smart, asst. chief and sec.-treas. ; T. Tarrant, capt. hose ; R. S. Chipman, capt. hooks and ladder ; F. Wilson, capt. chemical. On March 7th Chief McClelland resigned and on the 21st Jas. Smart was elected to the head of the Brigade. R. W. Begley was elected asst. chief and H. B. Wilson, was elected sec.-treas. After the 24th of May sports of this year the Brigade undertook to purchase uniforms out of their own funds. Thirty men were uniformed at a cost of about \$18.00 per man, the work being done in the city.

1899—Jas. Smart, chief ; T. Tarrant, asst. chief ; H. B. Wilson, sec.-treas. ; T. Bruce, capt. hose ; W. S. Rosewell, capt. hook and ladder ; L. Lloyd, capt. chemical.

1900—Jas. Smart, chief ; Chas. Traunweiser, asst. chief ; G. Mitchell, sec.-treas. ; T. Tarrant, capt. hose ; W. G. Zeigler, capt. hook and ladder ; L. J. Lloyd, capt. chemical. Suggestions were made this year for a hose house across the track but nothing was accomplished.

1901—Jas. Smart, chief ; H. McClelland, asst. chief ; Ev. D. Marshall, sec.-treas. ; A. Barrett, capt. hose ; W. G. Zeigler, capt. hooks and ladder ; E. J. Fletcher, capt. chemical. This was a memorable year, in that the Brigade held their first church parade. New uniforms were purchased for the band at a cost of about \$500. During the visit of the Duke and Duchess of

der was made this year that two or three firemen should attend at the Opera House during performances to guard against accident.

1904—(Officers same as 1903). Recommendations made to the council for a double chemical engine, new up-to-date hose waggon, new fire engine, and fire stations south of track and east of Elbow river, all of which will be carried out.

York the Brigade acted as special police and had their hall elaborately decorated but the royal eyes were not cast upon it. In October H. B. Wilson was elected band secretary to lighten the burden upon the brigade official. Through the efforts of Bandmaster Smith and Chief Smart a band stand was erected in the C.P.R. park. Chief appointed Fire Inspector.

1902—Jas. Smart, chief; H. McClelland, asst. chief; Ev. D. Marshall, sec.-treas.; A. Bassett, capt. hose; W. G. Zeigler, capt. hook and ladder; E. J. Fletcher, capt. chemical. Benefit Association organized to provide for members injured at fires or practises. Automatic up-to-date alarm system installed with 1300 lb. bell.

1903—Jas. Smart, chief; H. McClelland, asst. chief; Ev. D. Marshall, sec.-treas.; A. Barrett, capt. hose; W. G. Zeigler, capt. hook and ladder; E. J. Fletcher, capt. chemical. New uniform purchased for brigade at cost of about \$600.00. Four more boxes added to alarm system and chemical extinguishers added to each rig. An order

to organize under the name of The Calgary Firemen's Benefit Association of Calgary.

The object of the association is to create, maintain and disburse a fund for benevolent purposes among its members.

The Mayor and Chairman of Fire, Water and Light Committee are members ex-officio.

THIS Association began its good work of assisting sick and disabled members at a special meeting called on March 25th, 1902, at which Chief Jas. Smart explained the objects of the Association as being similar to those attached to all well regulated fire departments throughout the larger cities of Canada and the United States. He urged that the time had now arrived when the Calgary Fire Department should be more prepared than ever for the care of its members, because the city was increasing rapidly, and its buildings were every year gaining greater proportions, consequently more dangers would have to be faced and greater would be the casualties, and that a step in the direction of creating a fund for relief purposes could not fail to be for the benefit of all and the Department in general.

It was then decided unanimously

Any person joining the Department may become a member on application to the Secretary and the payment of \$2.50.

Any citizen may be elected a life member by paying the sum of \$25.00, which entitles him to all the rights and privileges of the Association except holding office and receiving benefits.

Any member who may be injured in the performance of his duties as a fireman receives at the rate of \$20.00 per month disability from injuries so received, and \$50.00 is allowed to defray funeral expenses in case of death.

The Association is pleased to report that only on two occasions have drafts been made on their fund which has increased to a few hundred dollars from the \$3.00 charged members and the generous donations made by friends and citizens of which the following is a list:

Record of Fires.

1894—10 calls. Cost to city \$186.75.

1895—20 calls. Cost to city \$308.25.

The principal fires of this year were Cushing's factory and Maclean's drug store.

1896—10 calls. Cost to city \$201.55.

1897— 7 calls. Cost to city \$288.45.

The Park hotel fire was the principal event in fire line of the year.

1898—10 calls. Cost to city \$101.85.

1899— 8 calls. Cost to city \$157.50.

The fire in Kerr & Tarrant's tailor shop was the principal fire of the year.

1900—20 calls. Cost to city \$513.20.

1901—11 calls.

The disastrous fire in the Norman block Dec. 25th, 1900, was a hard one for the department, being the most difficult one to cope with up to that date.

1902—18 calls. Cost to city \$472.50.

1903—24 calls. Cost to city \$750.00.

The fire in Hatfield's stores, which threatened to be a very serious one, was confined to the building, though much stock was damaged.

1904—Jan. 5th brigade called to Norman block at 2 a.m. This building was again burned to the ground through failure of water pressure, entailing serious loss.

The departmental year ends the first regular meeting in December.
